Russian rocket engine test set for 4:30 p.m. Wednesday at Marshall

NASA engineers plan to test fire a Russian-built rocket engine at approximately 4:30 p.m. Wednesday in the Advanced Engine Test Facility at Marshall. The 56-second test is designed to measure the performance of the Atlas III propulsion system and how these components interact with the RD-180 engine. The RD-180 — the most powerful rocket engine tested at Marshall since Saturn rocket tests in the 1960s — generates 860,000 pounds of thrust.

Open Season Health Fair set Thursday in Bldg. 4203, room 1201

November is National American Indian Heritage Month

Center pledges \$334,590 after fourth week of CFC

After four weeks, employee contributions to the 1998 Combined Federal Campaign total \$334,590, with an average gift per person of \$216. The Center's goal for this year's campaign is \$432,420.

Marshall Exchange Council seeks nominees

The Marshall Exchange Council is accepting nominations for an election to fill two two-year positions on the Council beginning Jan. 1. Civil service employees may nominate any employee who has worked at Marshall at least one year. The deadline for submitting nominations is 4:30 p.m. Nov. 17. For nomination guidelines, **contact:** Exchange, 4-7564.
